**Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach a motor-gear unit having a housing with an eccentric wheel gear driven by a rotary drive. The eccentric wheel rotatably supported on the eccentric element and a driver which cooperates with the eccentric wheel (10) by intermittent meshing, where the eccentric wheel gear is disposed in a free installation space of the rotary drive. The housing having a part that divides the free installation space from the rotary drive, where at least one guide bolt is mounted. The at least one guide bolt (22) cooperates with the eccentric wheel (10) and both assures the eccentric motion of the eccentric wheel (10) and prevents an undesired rotation of the eccentric wheel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
